Commissioner for Patents

The Applicant was remanded by the Board of Appeals to clarify the status of seven sample articles, which were cited in the Applicant's Reply Brief; filed on 3/9/04. Pursuant to 37 CFR § 1.195, the examiner finds the seven sample articles, which are requested to be entered, to be late in the prosecution. The articles if to be significant to the Applicant's arguments should have been brought to the examiner's attention much sooner, since the examiner has maintained the same interpretation of the terms pixel and electrodes throughout the prosecution, and from that basis the articles will not be entered.
